

Are you referring a Child or Young Person for medical/surgical intervention who has a learning disability or a confirmed diagnosis of Autism or Aspergers to Royal Manchester Children's Hospital?

If so please tell us about this so that we can make their visit as stress free as possible.

Please could you:

- Please e-mail playservices@cmft.nhs.uk to inform the department about the child/young person so that reasonable adjustments can be made.
- A Team Member will then contact the family to assess the specific needs of the child/young person so that reasonable adjustments can be made to ensure their visit to RMCH is designed to support their needs.
- The department will then liaise with the medical/surgical team to whom you have referred your patient.
- If you require any further information, please contact the Specialist Advisor for Autism for Royal Manchester Children's Hospital (RMCH) for further information on **(0161) 701 5504**.

Thank you
