

Division of Laboratory Medicine

Immunology

Mannose Binding Lectins

Referred to:

Immunology Department
Camelia Botnar Laboratories
Level 4
Great Ormond Street Hospital
London
WC1N 3JH

General information

Specimen transport: At room temperature

Repeat frequency: At significant change of clinical symptoms

Special precautions: None

Laboratory information

Normal reference range: >1300ng/ml

Volume and sample type: 7ml clotted blood

Method: ELISA

Turnaround time (calendar days from sample receipt to authorised result): Median - 16, 95th percentile - 34

Clinical information

Indications for the test: Recurrent infections in childhood

Factors affecting the test: None

ICE reference: Mannose Binding Lectin
