

## Toxoplasma avidity

### General information

**Collection container (including preservatives):** 6mL clotted blood tube

**Specimen type:** Venous Blood

**Collection:** 6mL blood tube

**Specimen transport:** No special needs

**Minimum volume of sample:** 2 mL

**Special precautions:** All samples are suitable for overnight refrigeration only, they must not be stored over a weekend

### Laboratory information

**Measurement units:** Low avidity; High avidity

**Turnaround time for provisional result (working days):** 5 days

**Turnaround time to final result (working days):** 7 days

### Clinical information

**Clinical decision points:** Not applicable

**Factors known to significantly affect the results:** Haemolysis
