

Meet the consultant team

Clinical advice for adult patients from the MFT Directorate of Clinical Biochemistry

Clinical advice is available 24/7. During core hours (Monday to Friday 9am to 5pm, not weekends or bank holidays) this is provided by the relevant Duty Biochemist. At other times, you can contact the on-call consultant via the MFT Switchboard (0161 701 4000) and ask for the on-call adult consultant biochemist. We also welcome specific clinical queries, so take a look at the biographies below to help you choose who to ask.

Jo Adaway FRCPath

Jo has worked in the Trust since 2003, with a brief hiatus to work at Christie Hospital from 2006-09. She has been a Consultant Clinical Scientist since November 2020 and has a specialist interest in mass spectrometry. Covers Wythenshawe Hospital and Trafford General Hospital.

Jo.Adaway@mft.nhs.uk

Katharine Hayden FRCPath

Kath is a Consultant Clinical Biochemist with experience of working in several different NHS Trusts in GM and Liverpool. Her special interests are in the areas of endocrinology and POCT. Covers Oxford Road Campus and North Manchester General Hospital.

Katharine.Hayden@mft.nhs.uk

Ed Hinchliffe FRCPath

Ed is a Consultant Biochemist with specialist interest in adult nutrition and endocrinology. Currently pursuing Doctoral research project aimed at identifying novel biochemical markers of fetal growth restriction. Covers Oxford Road Campus and North Manchester General Hospital.

Edward.Hinchliffe@mft.nhs.uk

Dr Graham Horsman MBChB FRCPath

Graham is a Consultant Chemical Pathologist with interests in lipid disorders, diabetes, and metabolic renal stone disease. Covers Wythenshawe Hospital and Trafford General Hospital.

Graham.Horsman@mft.nhs.uk

Anne-Marie Kelly MBChB FRCPath

Anne-Marie has been a Consultant Chemical Pathologist in South Manchester since 1994. Her specialist areas of interest are lipid disorders and the use of interpretative comments. Covers Wythenshawe Hospital and Trafford General Hospital.

Anne-Marie.Kelly@mft.nhs.uk

Brian Keevil FRCPath

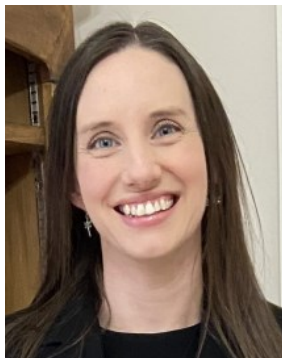

Brian is a Consultant Clinical Scientist who has worked in the Trust since 1983. He has a specialist interest in mass spectrometry and investigation of the adrenal gland. Covers Wythenshawe Hospital and Trafford General Hospital.

Brian.Keevil@mft.nhs.uk

Meet the consultant team

Clinical advice for paediatric patients from the MFT Directorate of Clinical Biochemistry

Clinical advice is available 24/7. During core hours (Monday to Friday 9am to 5pm, not weekends or bank holidays) this is provided by the relevant Duty Biochemist. At other times, you can contact the on-call consultant via the MFT Switchboard (0161 701 4000) and ask for the on-call paediatric consultant biochemist or use the generic email duty.paedbiochemist@mft.nhs.uk We also welcome specific clinical queries, so take a look at the biographies below to help you choose who to ask. All of our paediatric consultants cover all four of our sites.

Beverly Hird FRCPATH

Bev was lead scientist in the Newborn Screening/specialist paediatric endocrine laboratory until her appointment as Consultant Paediatric Biochemist/Director of Newborn Screening.

Beverly.Hird@mft.nhs.uk

Professor Eric Kilpatrick FRCP(Ed), FRCPATH

Eric joined us from the SIDRA Women's and Children's hospital in Qatar, where he set up the biochemistry laboratories at the inception of this new hospital facility. His fields of expertise include diabetes and lipid disorders. Eric's role is split between adults and paediatrics.

Eric.Kilpatrick@mft.nhs.uk

Dr Tim Morris MBChB, FRCPATH

Tim joined us in his first consultant position. He has a special interest in paediatric gastroenterology, intestinal failure, nutrition, and adult lipid disorders. Tim's role is split between adults and paediatrics.

TimothyJames.Morris@mft.nhs.uk

Lesley Tetlow FRCPATH

Lesley is Joint Clinical Director for Biochemistry. Lesley joined RMCH as a paediatric consultant in 1999 having led Immunoassay services at South Manchester. She was Director of Newborn Screening for MFT for 15 years. She has specialist expertise in newborn screening and paediatric endocrinology.

Lesley.Tetlow@mft.nhs.uk

Dr Chris Chaloner FRCPATH

Chris is a Consultant Paediatric Biochemist and Joint Clinical Director for Biochemistry. Chris's main areas of expertise lie in paediatric gastroenterology and nutrition, and evidence-based diagnostics.

Christopher.Chaloner@mft.nhs.uk
