I am self employed in private clinical practice

NHS England

Paid Consultancy (not employed) with Informed Genomics. <https://informedgenomics.com/> This was 4 days in 2021-2022 to help them recruit a laboratory genetic counsellor and advice given as regards regulatory process. Currently no relationship with this company. I currently have no private genetic counselling practice.

I am undertaking a speaking/ roundtable event (around AI) on behalf of GE HealthCare (GEHC) on 22nd March 2023 for which I am getting paid a fee of £1,080.00. In line with the Standards of Business Conduct policy, this fee will be paid into an MFT Exchequer account to offset my salary which is why I have put it in the category of "indirect interests" (I will not be financially benefitting on a personal level). GEHC are also paying my travel to London and overnight accommodation (total value ~£600) to participate, and I have been gifted free registration for the first day of the British Institute of Radiology AI conference on 23rd March. GEHC are also taking participants out for an evening meal on 22nd March. Exact value unknown but estimated £70 per individual.

External position as Charity Trustee in the role of Director of Operations for a small NFP Childrens Charity

I am National Specialty Advisor for BMT for NHS England which attracts 1PA I am Secretary for British Society for Blood and Marrow Transplant and Cellular Therapy which attracts no remuneration

Member of the Immunology and Allergy Clinical reference Group - NHS England Member of prior committees (pre-changes in committee membership) The Clinical Reference Group for immunology and allergy has a significant work plan this year and all members of the committee have been given important roles to move forward a range of areas of commissioning essential for the delivery of allergy and immunology services across England. The move to commissioning by local ICS teams for specialist allergy services makes the input of allergy specialists absolutely critical in the development of national policies, guidelines and service specifications that will be implemented locally. I have experience working both nationally (as a previous CRG member) and locally in the development of the Allergy service in Manchester, this experience is important to support the CRG in the development of allergy provision across England.

Specialist Visiting Lecturer at Sheffield Hallam University and Salford University

Enrolled as bank staff at the Alexandra Hospital in my own time.

Working with Santen to provide teaching lectures and advisory panel expertise

Ad hoc locuming at Warrington Hospital as a Clinical vascular scientist

I work as Clinical Information Officer for Rinicare Ltd. This has not changed since my previous declaration.

Private practice

Director of clinical services for Manchester Surgical Services - an "Any willing provider" company within the NHS. I undertake clinics and Endoscopy lists for Manchester Surgical Services outside my MFT contracted hours

Completed independent contracted work with SystemC relating to benefits realisation of digital product management

Registered associate with the Healthcare Innovation Consortium conducting work outside of contracted hours on a statement of work basis

I work with Spamedica who is an independent sector provider of NHS cataract

I undertake paid consultancy work for Lexington medical and LOTUS-BOWA

I am Trustee and Current chair of the IBS Network

I was paid a consultancy fee by Gilead Sciences to provide my services for a one off staff training event.

Senior Lecturer post at MMU

Established as a sole trader since 2016 for ultrasound services. Companies include Scanasure, Thiismy Yorkshire Health Solutions and Atlas Diagnostics.

Private practice Limited company set up Dec 2021 - Dr R Barraclough LTD

Sedation for IVF ultrasound guided oocyte retrieval

I opened a clinical psychology private practice recently. This is based in St. Helens, Merseyside. I am fully insured to do so and pay for regular private supervision with a supervisor outside of the NHS/my current role. I work 4 days in my NHS role and work one or two evenings a week in my private practice role. So the total adds up to less than or around full time hours. My practice sits outside of the MFT area/location but I do see people online too. I let clients know that I work in CAMHS and check where clients are based. I would not take on someone who was being supported by Trafford CAMHS.

Private practice at HCA

I work in the private sector as an anaesthetist. I am paid via my own incorporated business Dr L Doyle Ltd

In my own time, I do some endoscopy sessions for a private provider, Beacon Medical Services.

I have regular private practice lists at the Alexandra Hospital in Cheadle. With Mr Curran (biweekly) and Mr Hornung (monthly). There are almost never any NHS patients on these lists. However, I have treated NHS patients at this hospital before.

I undertake private practice with clients that would not appear on my NHS caseload.

I undertake clinical private practice at Spire Manchester alternate Mondays and Thursdays.

Private practice is exclusively bariatric procedures
Gastric balloons inserted at Spire Hospital Manchester and Prime Imaging in Stockport.
Patients are recruited by Commercial Companies
National Obesity Surgery Centre Allure weight loss Ltd

Private practice at the Alexandra Circle Hospital since 2012

I do private practice as an Anaesthetic Consultant

I undertake private practice and this is declared in my job plan My pp work is based at the Alexandra Hospital and Spire Manchester

I undertake private practice on a Friday afternoon at the Nuffield in York

I am accepting private referrals for tinnitus management

Clinical private practice at the Alexandra Hospital
Cheadle Medicolegal private practice and share ownership in medicolegal chambers
