Dr Mustapha Koriba

I grew up in a family of healthcare professionals and as such, I have developed a strong passion for safe and quality patient care. Many members of my family – including me- have been patients at the Trust hospitals in the past 30 years. Both of my grand daughters are born in Manchester Royal. I have been a Public Governor for the Rest of England and Wales at Wrightington, Wigan and Leigh for 9 years. I have been one of the most active governors: I have carried out patient surveys, safety/quality walks, etc; I have also been member of committees: People, Nomination and Audit. During this time, I have learnt considerable amount about the role, patient care, people and the challenges the NHS faces. I can bring that experience to the role in Manchester, fully conscious that there will be a lot of listening and learning to be done at Manchester. On the people side, I have one motto "look after the people who look after the people". I have strong inter-personal

skills and like to engage people at all levels. I have 25 years in senior management in various international roles (Vice-President/Director Roles across Europe, Americas, Asia and Africa). Whilst in employment, I still managed to do charitable work e.g. mentoring helping unemployed people get back to work or start a new business. Now 100% of my time is dedicated to voluntary and charitable work I am married with two grown-ups, 5 grandchildren.

Sanket Pangavhane

I would like to be a governor because I am passionate about making a meaningful contribution to the development and success of the school community. I believe education plays a vital role in shaping young people's futures, and I want to support the school in delivering the highest standards of teaching, learning, and pastoral care. Being a governor would allow me to be part of a team that ensures the school is well-managed, inclusive, and ambitious for all its pupils.

I am particularly interested in contributing to strategic decisions that affect student outcomes, staff wellbeing, and resource management. I understand the importance of holding leadership to account in a constructive way, using data and evidence to support improvement while celebrating successes. My background in (, e.g. education, like MSc in Supply Chain Management, community work engagement) equips me with transferable skills such as communication, problem-solving,

and critical thinking, which I believe would be valuable in the role. I am also committed to promoting equality, diversity, and a positive school culture where every child is supported to reach their full potential. I see the governor role as an opportunity to give back to the community, learn more about the education system, and contribute to the long-term vision of the school. Overall, I want to be a governor because I care deeply about education and believe I can make a positive, lasting difference through active, informed, and committed governance.
