How will I get to the Eye Hospital?

You can get to the Eye Hospital by:

Bus - the 147, V1, V2, and 18 all go into the hospital site but most buses stop outside the hospital site.

Train – Manchester Oxford Road station is approximately 1 mile away. Manchester Piccadilly station is approximately 1.5 miles away.

Metro - St Peter's Square is the nearest tram stop approximately 1.5 miles away. You can walk up to the hospital from the tram stop (this will take around 30 minutes) or you can get the bus.

Car – There is car parking available at Grafton Street Multi Storey, sometimes spaces can be difficult to find. The Sat Nav address is: M13 9WL.

Welcome to Manchester Royal Eye Hospital

Clinic H

Please check in to Clinic H reception.

Clinic H is the first clinic on the right hand side as you enter the main entrance of the Eye Hospital.

Waiting Area

In the waiting area you can:

- Use your mobile phone and portable games/tablets.
- Read books.
- Watch TV or a DVD.

Please allow up to 2 hours for an appointment.

The waiting area can get busy and noisy. You can ask any member of staff for a pager and sit somewhere else. This allows you to leave the clinic and not miss your appointment.

Is there anywhere to buy food and drink?

- There is a café in the Eye Hospital located at the bottom of the atrium.
- There is also a Marks and Spencer's outside the Eye Hospital on the boulevard.
- There is a Subway located in the Children's Hospital.
- There is a Costa Coffee in Manchester Royal Infirmary and Saint Mary's Hospital.

Orthoptist

You might see one of our Orthoptists who may:

- Check your vision, colour vision, and field of vision.
- Assess the movement and co-ordination of your eyes.
- Treat any visual symptoms you may have for example double vision.

Orthoptic Assistant

You might see one of our Orthoptic assistants who may:

- Check your vision, colour vision and field of vision.
- Take your blood (or you can go to the blood room if you prefer).

Nurse

You might see one of our nurses who may:

- Check your vision and colour vision.
- Check your height and weight.

Optometrist

You may see one of our Optometrists:

- They will look to see if you need glasses.
- They may assess you for low vision aid

Eye Drops

You may need eye drops so we can look at the back of your eye:

- They dilate your pupil (the black part of your eye).
- They take approximately 20 - 30 minutes to work.
- They will blur your vision for up to 4 hours.

Doctor

Lastly you might see one of our doctors:

- They may look at the back of your eye with a lens.
- Or check your eye pressure.

Pharmacy

If you are under 16 years

You will take your prescription to the Outpatient pharmacy located in the Children's Hospital near the Children's Accident and Emergency Department.

If you are over 16 years

You will take your prescription to the Outpatient pharmacy located in the Eye Hospital across from clinic G.

Listening to you

At your appointment you can talk about:

- Seeing clinical staff without your parent/guardian/carer present.
- Being involved in decisions about your care.
- How you would like information to be given to you.
- Appointment times that suit you.
- Transferring to adult services when the time is right.

All this is known as transition.

If you would like more information on transition to adult services please follow the link below:
