

Manchester Royal Eye Hospital
Paediatric Services

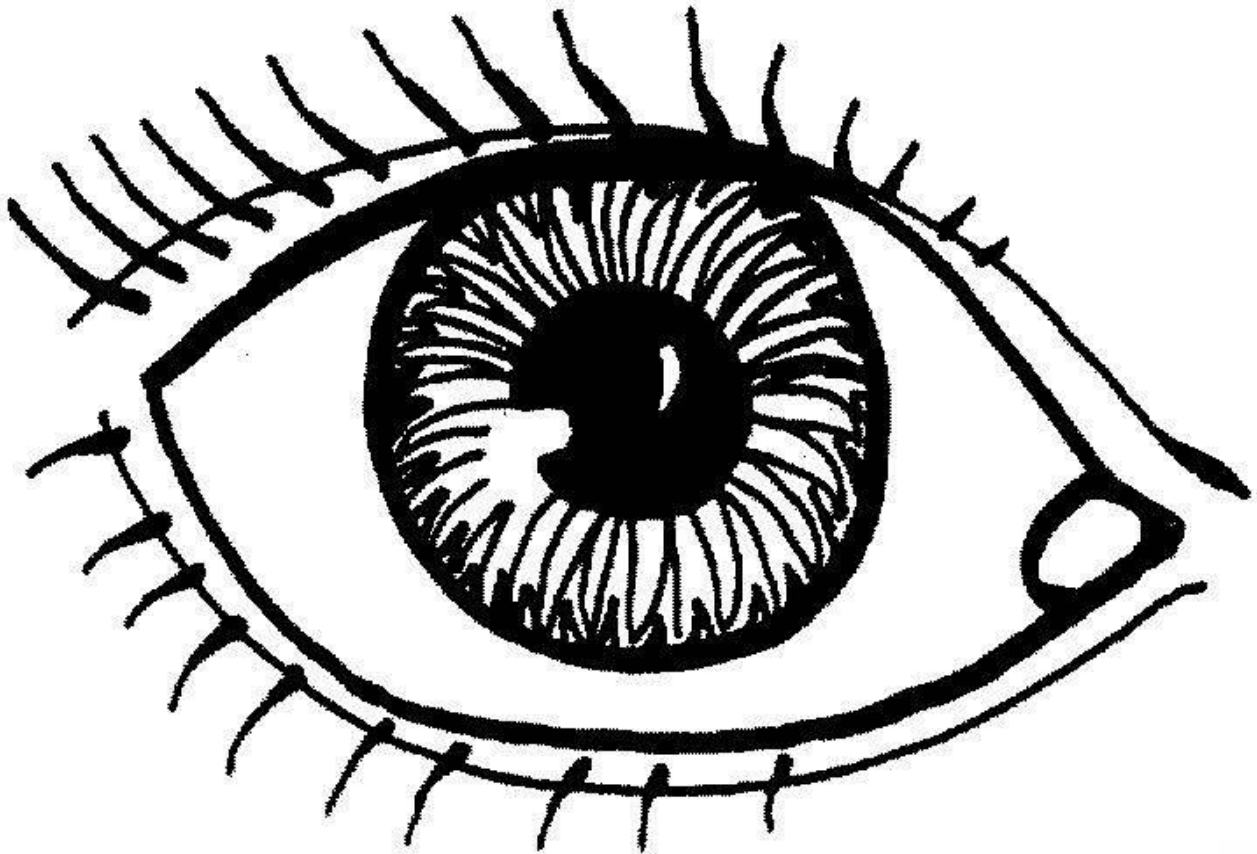

Information for Patients

Uveitis Information 3-5 years

Why do I need to go to the hospital?

To check your eyes are healthy.

Here is a picture of an eye for you to colour in...

What will happen at the hospital?

We use special binoculars to check your eyes.

Here is a picture of what they look like, for you to colour in...

You might need to have eye drops. They can feel cold but if you count to 10, it will feel better.

Sometimes we give you medicine to help keep your eyes healthy!

Important!

You should tell your parents if your eyes ever feel strange or you can't see properly.
