Visiting the Dental Hospital

If you need to visit the dental hospital at the moment, we are here to help you and look after you.

We are doing things a bit differently to help keep you safe.

Before you come, we would like to chat with you and your parents by phone or video chat to say "Hi!"

When you arrive, you will come straight in to meet your friendly dentist and nurse.

They will be wearing special clothes like this. The special clothes help keep germs away.

They might wear:

goggles

apron

mask

gloves

Some people think they look like superheroes when they wear this! Other people think they look like astronauts or wizards. What do you think?

Your parents will be asked to join in and wear a mask too!
Draw what you think they will look like.

We will ask you to clean your hands with gel when you arrive.

Your dentist and nurse might look different in their special clothes.
Remember they are very friendly and want to look after you.

They will help you with your problem and then you can go home again.

If there is anything making you worried, or anything you would like your dentist to know before you come, you can:

- Tell your parents and they can tell us, or
- Tell the dentist on the phone when they call, or
- Write it here and bring this with you:

STAY AWAY GERMS!

MAGIC CAPE

UH OH!

EEPS!

EEN!

PK @DRPIPPA.K

If you go to the dentist today, be sure of a big surprise.
For you will see a superhero before your very eyes.
They cannot fly or lift a car but the special thing they do
Is wear some magic clothes and masks to help protect all of
you.
A big blue Cape, some rubber gloves and masks up to their eyes.
Don't be afraid of what you see, remember this is their disguise
The germs don't like the magic clothes, so it helps keeps them
away
So you don't get sick or poorly and you can still have fun and
play.
So now you know the secret of the special thing they do.
Superheroes at the dentist and they have helped look after
you.
