

# Our Forward Plans

## Tell us what matters to you

Each year the Trust develops forward plans which set out what we plan to do in the coming year and involves balancing the interests of patients, the local community and other stakeholders. Involving a wide range of people in our planning process helps us to meet the needs of our patients and their families, our staff and partner organisations and the wider community that we serve. It also ensures that we achieve the national ‘must dos’ and align with what our partners in the local health and social care system are doing.

The Trust’s vision and strategic aims set out the longer-term aspirations of our organisation, describing what we want to achieve and how we would want the Trust to develop over the next five years. Our vision and strategic aims are:

Vision	<p><b>Our vision is to improve the health and quality of life of our diverse population by building an organisation that:</b></p> <ul style="list-style-type: none"><li>• Excels in quality, safety, patient experience, research, innovation and teaching;</li><li>• Attracts, develops and retains great people, and;</li><li>• Is recognised internationally as a leading healthcare provider.</li></ul>
Strategic Aims	<p><b>To complete the creation of a Single Hospital Service for Manchester (Manchester University NHS Foundation Trust), with minimal disruption whilst ensuring that the planned benefits are realised in a timely manner.</b></p>
	<p><b>To improve patient safety, clinical quality and outcomes.</b></p>
	<p><b>To improve the experience of patients, carers and their families.</b></p>
	<p><b>To develop single services that build on the best from across all our hospitals.</b></p>
	<p><b>To develop our research portfolio and deliver cutting edge care to patients.</b></p>
	<p><b>To develop our workforce enabling each member of staff to reach their full potential.</b></p>
	<p><b>To achieve financial sustainability.</b></p>

As part of our planning process each year, we also set out key priorities. These are our ‘must dos’ and they describe what we need to do in the coming 12 months in order to deliver our vision and aims. Our key priorities are set at both Trust and also at individual hospital level.

The views of our members, the patients we serve and the wider public are important to our Board of Directors when agreeing these priorities. Our Governors, who are elected by members to represent their and the public’s interests, also want to be sure your views and feedback are considered as part of our planning process.

We would therefore be grateful if you would take a few minutes to tell us your views about what our key priorities for 2019/20 should be. This could be for any of our nine hospitals or for the whole Trust (Manchester University NHS Foundation Trust).

**Please complete the enclosed questionnaire to share your views about our future priorities and what is important to you.**

**Once completed, fold and stick it as shown and send it to the Foundation Trust Membership Office via the freepost address (no stamp needed) on the reverse, by 12th October 2018.**
