Nomination is also being sought from:

- Third Sector Umbrella Organisation

Manchester University
NHS Foundation Trust

Sir Mike Deegan, Chief Executive

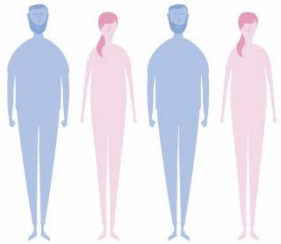

Reminder: why are we creating a Single Hospital Service?

Manchester has the highest rate of **early death from respiratory (breathing) diseases** in England. More than 64% of these deaths are considered to be preventable.

Manchester has one of the highest rates of **child poverty** in the country; with just over 32% of children aged under 16 living in poverty, and many live in homes where no-one is employed.

Nearly **40,000** people aged 16–64 in Manchester were long-term **unemployed** in 2014. This was 10.5% of the Manchester population.

In August 2015, there were **2,895** patients in Manchester diagnosed with **dementia**. The vast majority (95%) of these patients are aged 65 and over.

We have the highest number of **smoking-related deaths** in the country. Each year there are some 735 deaths and 4,760 hospital admissions due to smoking

Some 350 people under the age of 75 die from **cardiovascular (heart) disease** in Manchester each year.

Manchester Health and Wellbeing Board
Clinical Engagement - Sir Jonathan Michael Independent Review

What are the benefits of our new city-wide Trust, Manchester University NHS Foundation Trust (MFT)?

Consistently high standards of services at all hospitals

More opportunity to attract and keep the best staff

Less duplication and waste across sites

Stronger teams sharing specialised skills 24/7

More joined up patient record and clinical systems

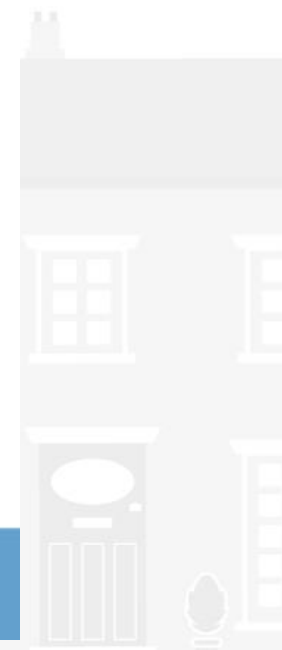

Increased opportunities to attract research funding

Better continuity of care wherever you are treated

[Visit the intranet homepage for the latest updates](#)

Groundbreaking opportunity

Currently

nine hospitals

– the tenth, North Manchester General Hospital, is planned to join MFT in 2018/19

Community Services

– which will become part of the LCO in April

40% of all acute activity

in Greater Manchester

£1.6bn turnover

20,000 staff

Hospitals in the new trust

Manchester Royal Infirmary (MRI)

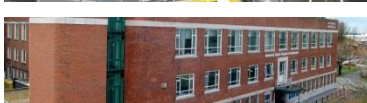

Saint Mary's Hospital

Royal Manchester Children's Hospital

Manchester Royal Eye Hospital

University Dental Hospital of Manchester

Trafford General Hospital

Altrincham Hospital

Wythenshawe Hospital

Withington Community Hospital

North Manchester General Hospital

Manchester University
NHS Foundation Trust
